

UK & EUROPEAN DISTRIBUTION

Stiller is synonymous with quality warehousing and distribution services, drawing on generations of specialist knowledge, enabling you to assess and/or outsource transport and distribution service requirements with confidence.

As the North East England member company for UK's premier pallet network, Palletline, Stiller provides the complete solution for the distribution of small or large palletised freight consignments, cost-effectively and on time.

Pallet consignments are collected from North East consignors and are shipped overnight for next day delivery to every region of the UK and beyond.

Simply put, Stiller is a highly regarded, professional regional and national distributor, with full and part load capabilities.

DISTRIBUTION AND PALLET DELIVERY SERVICES WITH STILLER INCLUDE:

- Regional and national full load distribution capability and groupage services
- Curtain sided trailer provision (with tail lift capability)
- Flatbed trailer provision including the carriage of abnormal loads
- Consultation support and distribution system reassessment and re-engineering
- Partnership initiatives including open book contracts
- UK and European pallet delivery
- Cost effective next day deliveries
- Lower cost two/three day delivery options

- Timed delivery capability

OUR METHOD

Stiller is a regional third party logistics provider with over 60 years of experience in the sector. Working successfully with some of the area's best known manufacturers and resellers, we offer a wide range of storage, handling and transportation services.

With ISO 9001:2008 (quality) and 14001:2004 (environmental) accreditation; as well as RHA and UKWA membership, you can be assured of a professional, customer-focused service.

Stiller operates multiple overnight 'trunks' to several nationwide distribution hubs. This enables us to offer the largest scale of service for pallet distribution available to businesses in the North East. By utilising several Palletline hubs and dedicated partners we are able to cut down on road miles and emissions, reduce handling and shorten delivery lead times.

PALLETLINE PLC

Palletline provides low-cost, effective freight delivery for businesses of all sizes across the UK and Europe.

The organisation's efficient 'hub and spoke' system supports numerous North East businesses, enabling them to get their goods to market cheaply and quickly. Companies who ship goods through the Palletline system benefit from cutting edge track-and-trace and electronic signature capture technology.

Palletline's market leading service is made possible by its members, who are handpicked from some of the UK's finest hauliers. This status was recently confirmed when Palletline PLC won 'Best Network' in the 2012 Motor Transport Awards, the industry's most prestigious event.

PARTNERLINK LTD

Partnerlink is one of the UK's largest national distribution consortiums. The concept of Partnerlink is to maximise freight movement whilst minimising pollution, through the cooperation and consolidation of loads between all regional partners.

Partners offer a strong regional presence and of such a scale and structure, you can be assured of a premium service.
